

一个博物学家在华西

此《A naturalist in western China——一个博物学家在华西）是英国植物学家威尔逊（E. Henry Wilson）的著作。威尔逊于1899年至1911年间在中国西部考察植物，他拍摄的大量照片成为当地的自然与人文景观考据。此英文本出版于1913年，内含照片插图100幅。

威尔逊在 1899年至1911年间，曾四次来到中国，三次进入横断山域考察。威尔逊被西方称为“打开中国西部花园的人”，他一共收集了65000多份的植物标本（共计4500种植物），并将1593种植物种子和168种植物的切根带回了西方国家。他引种了大量的园林花卉植物，其中有60种以他的名字命名。在他拍摄的照片里，除他研究的植物花卉外，还有大量当时该区域的人文地理历史照片，这些照片为我们对横断山域的综合研究，提供了珍贵的资料。（介绍参考

此书英文名**A naturalist in western China, with vasculum, camera, and gun; being some account of eleven years' travel, exploration, and observation in the more remote parts of the Flowery kingdom.** 此书在1929年重版时易名为《中国——园林之母China Mother of Gardens
